

Year 6

You need to ask yourselves...were **The Tudors** truly terrible or actually marvellous monarchs?

This term our topic is Mad Monarchs and Excellent Explorers! We will learn about the impact The Tudors had on British history and indeed the wider world.

Through science we will look at micro-organisms and health and hygiene. Did people in Tudor times really just have a bath twice a year and use leaves instead of toilet roll? We will also study forces and examine life on-board the Mary Rose ship. Would you like to have been a powder-monkey?

Of course the Tudors also brought us great literature, music and art. Who hasn't heard of Willy WobbleDagger or at least one of his famous plays? We shall read a selection of fiction genres and maybe even attempt a Horrible History rap!

The Tudors were great musicians and loved to play a recorder. We too will learn to play a new wind instrument- the penny whistle, taught by the very talented Kenny.

So join us on this Tudor time travelling exploration and let's find out if these famous monarchs were really so terrible!
