

Year Six

Yee Haw! Howdy Partners! How!

Our Year Six topic this Spring Term will be **A Whole New World**. We will travel to The Americas and embark on a journey of discovery to the Land of the Free and the Home of the Brave.

Through studying some famous American Inventors (Bell, Edison, Goodyear and Morse), we will learn about Forces, Electricity, Sound and Light and Shadows. Did you know, Henry Ford (who did NOT invent the automobile) brought the world the first moving assembly line? We will travel to deepest Sunderland to visit the Nissan plant and see how this has been developed in a modern manufacturing plant.

We will also look at the computing industry and the birth of Apple. A trip to the **Big Apple** is also on the cards; that is the Apple Store, Newcastle before you get too excited!

In Year Six we will continue to debate the Black Civil Rights Movement as well as looking at the first American Pioneers and Immigrants and the Native American population.

We might also indulge in a bit of R and B, Rock and Roll and even Rap our way to the SATs.
