

# YEAR 1 GROWING

The children will be learning all about Dinosaurs this term. During the topic the children will be looking at the Harry and the Dinosaurs Series as well as non-fiction books and poetry books about Dinosaurs. As part of our topic we will be finding out about the many types of Dinosaurs, where they lived, what they looked like, what they ate and the different eras in which they lived in.

As part of our topic the children will be making moving pictures based around dinosaurs and using simple levers to do this. They will also be making Dinosaur landscapes, footprints, using different mediums to create dinosaur pictures and creating their own marbled Dinosaur eggs.

We will continue to learn lots about our numbers, time, money, shape and space throughout the topic and will be using these skills to help us learn more about the Dinosaurs and the time that they lived. We are also continuing to learn how to play our recorders and reading music notations. We will even learn how to play a dinosaur song!

In order to learn more about Dinosaurs, we are going to watch the film Walking with Dinosaurs and going to the Centre of Life to become Palaeontologists for the day digging for fossils in various areas and identifying what we have found and why we think it belongs to that dinosaur.

We can't wait to delve into the past and learn all about these magnificent creatures that once walked on our planet.
